COURSE OVERDUE

 **31**

Training Engagement via Due Date

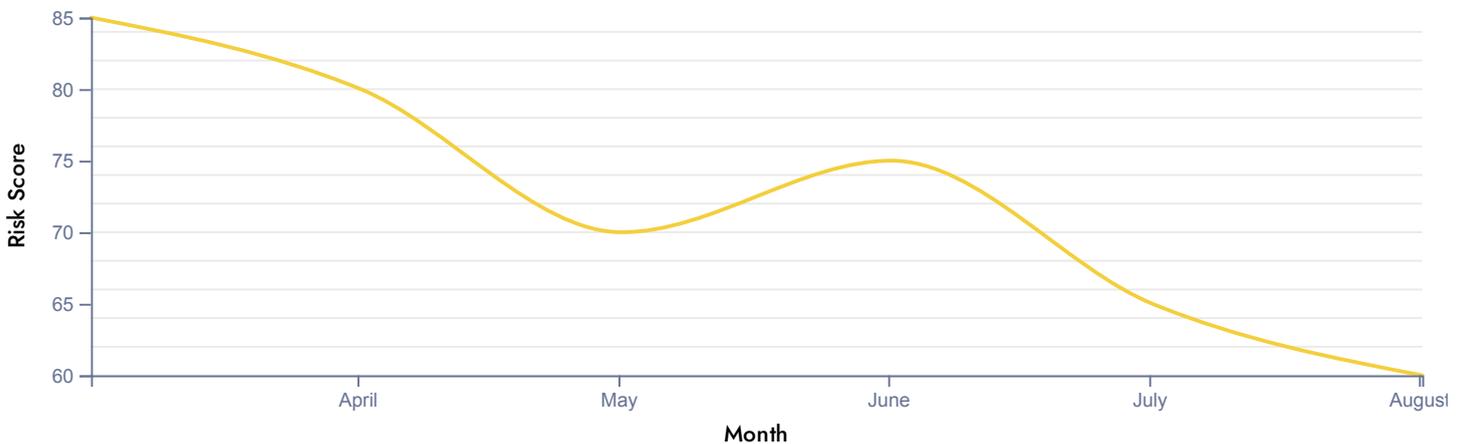

The graph shows the average days taken to complete a course last month. Courses are due on the day assigned, with a seven-day grace period before being overdue.

Human Risk Score

67

The below chart shows the average learner risk score for the previous month. Risk scores reset every month and are calculated based on learners' training and phishing performance.

Last 6 Months Course Due vs Course Completed

The below chart shows how many courses are available to be completed (due) and how many courses have been completed. The data has been organised by month to provide an overview of how many courses are completed by month.

Human Risk Score Report

The below shows up to twenty five learners risk scores for the previous month. Human risk score is calculated every month, based on the learner training and phishing performance in the previous month.

Learner Name	Min	Max	Current	Average
Alex Johnson	40	80	72	65
Priya Singh	50	88	75	70
James Lee	35	76	62	58
Maria Garcia	42	85	69	66
Wei Chen	44	83	67	64
Ava Davis	38	79	63	60
Ethan Brown	41	81	65	62
Sophia Taylor	39	78	61	59
Liam Wilson	36	74	58	55
Fatima Noor	45	86	71	67

Phishing Results Overview

The below shows campaign details for the phishing simulation including send date, sender information, and target group.

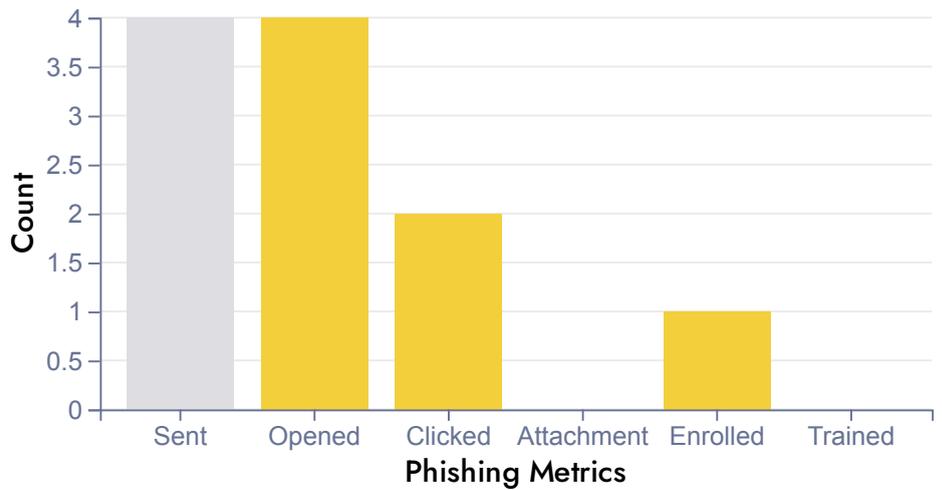

Detail	Value
Campaign Send Date	30th June 2026 at 11:15pm
Send From	CEO (support@office-email.com.au)
Sending Group	All Learners

Phishing Simulation Results

The chart below shows the breakdown of phishing simulation metrics along with percentage failed rate.

Percentage Failed

Failed Learners

The table below shows learners who failed the phishing simulation by clicking links, downloading attachments, or not completing required training.

Name	Delivered	Clicked	Attachment	Enrolled	Complete
John Smith	Yes	1	No	No	No
Sarah Johnson	Yes	1	Yes	No	No
Michael Brown	Yes	0	No	No	No
Emily Davis	Yes	1	No	Yes	No
David Wilson	Yes	1	Yes	No	No
Temu Trump	Yes	1	No	Yes	No
